### STRATEGY DESCRIPTION

Our large cap growth strategy is designed to deliver significant capital appreciation over time while also providing stability during market downturns. We seek to achieve this through a proprietary investment process that combines bottom-up stock selection with top-down thematic investing, and a judicious mix of “stable growth” and “emerging growth” companies in the portfolio.

### STRATEGY HIGHLIGHTS

<b>Style</b>	Large Cap Growth
<b>Process</b>	Fundamental bottom-up, top-down thematic
<b>Investment horizon</b>	4 to 5 years
<b>Number of holdings</b>	35 to 60
<b>Sector deviation</b>	Free to deviate within a clearly defined range

### INVESTMENT PROCESS

#### Idea Generation

Identify secular trends/beneficiaries and monitor critical variables

Screen using metrics and financial catalysts

Other sources: industry journals, conferences, meetings with management, competitors, analysts, and peers

#### Fundamental Research

Identify key drivers for business

Assess competitors, suppliers, vendors  
Evaluate operational and financial performance

Review public filings and street research  
Identify company-specific risks

#### Portfolio Construction

Balance of Stable & Emerging

Intersection of bottom-up research and top-down secular views

Macroeconomic outlook

### WHY INVEST IN THIS STRATEGY

- Focused on large cap ideas, seeks stable and emerging growth companies within industries and sectors poised to benefit from global secular growth trends
- A 36-year track record of outperformance – both absolute and risk-adjusted
- Stable team with over 25 years of industry experience on average
- Demonstrated investment methodology, and a rigorous process designed to deliver strong capital appreciation over time and stability in down-markets

Past performance is no guarantee of future results. Inherent in any investment is the potential for loss. Performance results include the reinvestment of dividends and interest. Dividends received from ADRs are included net of foreign withholding taxes. Actual returns will be reduced by investment advisory fees and other expenses that may be incurred in the management of the account. Gross performance results are presented before management fees and expenses, but after all trading commissions. Net performance does reflect the deduction of all fees except custody fees. Performance <1 year is not annualized. Please see composite description and index definition on the next page.

1. Based on a representative portfolio. Representative portfolios are selected for being constructed most in line with the composite's guidelines.

2. Based on gross performance

Past performance is not indicative of future results. Inherent in any investment is the potential for loss. There can be no assurance that investment objectives will be achieved. This document is being provided on a confidential basis for informational purposes only and is not an offer to sell or a solicitation of an offer to buy or sell an investment, nor does it constitute legal, tax, accounting or investment advice; recipients are advised to consult their respective advisers regarding such matters.

Index Definitions The Russell 1000 Growth Index is constructed to provide a comprehensive and unbiased barometer of the large-cap growth market. Based on ongoing empirical research of investment manager behavior, the methodology used to determine growth probability approximates the aggregate large-cap growth manager's opportunity set. The Large Cap Growth composite was created January 1, 2000. Typically the Large Cap Growth portfolio is similar in composition to the benchmark except to the extent that the Firm utilizes ADR's that are not included in the domestic index. Composite Description The Large Cap Growth Composite includes all portfolios invested in U.S. Equities (including ADR's) with strong earnings and growth characteristics and large capitalizations. It is not possible to invest directly in an index.
